applications**

RAD 350SL TOOL KIT

PART #: 12316

Extreme Duty Torque Wrenches For Heavy Duty Applications!

More than 25 years of experience in gearbox engineering and design has brought about our latest generation in planetary gearboxes – RAD Single Speed. Designed for extreme duty use in a variety of industries worldwide.

- PATENTED drive system delivering one of the highest power-to-weight ratios of any pneumatic controlled bolting system.
- Wide torque range to suit multiple applications
- Unmatched reliability delivered by one of the most advanced engineered gearboxes on the market.
- Reliable and dependable solution for the installation and removal of heavy-duty fasteners.
- Smooth continuous flow of controlled torque eliminating destructive hammering.
- Lightweight ergonomic pistol grip design reducing operator strain and injury; resulting in increased productivity
- Stall type tool capable of accuracy of +/-4%, and repeatability of +/-2%.
-

All RAD pneumatic Series tools are supplied with Reaction arm, 3M hose, tool holder, Filter/Regulator/Lubricator, Weatherproof Site box and instruction manual as standard.
